

Air Guardian Micro

Personal Space Air Purification

Perfect for your personal space in:

- Home
- Automobile
- Nursery
- Restroom
- Travel
- Office

Benefits

- Reliable, chemical-free disinfection by LED UV-C technology and charcoal activated filter
- Provides constant air purification and odor elimination to your breathing zone
- Eliminates pollen and particulate metal
- Safe for you and the environment with no mercury or ozone
- One year warranty
- 6 month filter life

Removes ultra-fine dust

H13 HEPA filter removes pollen, ultra-fine dust, and particulate matter down to 2.5 microns (PM2.5).

Eliminates cigarette smoke and deodorizes air

The combination of the filter and UV LED systems remove offensive odors and volatile organic compounds (VOCs) from kitchens, restrooms, cars, and pet areas to create a healthy breathing environment.

Sterilizing lethal bacteria and viruses

UV-C LED technology sterilizes 99% of more than five types of bacteria and coronaviruses, including SARS-CoV-2, the virus that causes COVID-19.

Features

- Improves indoor air quality
- USB port for continuous usage
- Eliminates odors and cigarette smoke
- Creates a healthy personal environment using UV-C LEDs combined with (H13) HEPA filtration (PM2.5)
- Eliminates 99% of bacteria and viruses, including SARS-CoV-2, the virus that causes COVID-19
